Writing Requirements & Documentation

Professional Experience

Visionbox, Colorado Springs, CO

2018 - Present

Full Stack .Net Developer -Technologies: React, React Native, .Net MVC, TypeScript

- Developed and deployed Android and iOS applications using the React Native framework, that utilized both online and offline activity.
- Implemented web and local API's for web requests and the handling of local storage of offline devices.
- Maintained and patched legacy code from older web frameworks such as Microsoft Web Forms, jQuery, and Angular.js projects.
- Created wireframes and requirement documentation outlining the application features and limitations for clients.

CVS Pharmacy (Contractor Via Randstad), Centennial, CO

2017 - 2018

UI/UX Developer - Technologies: Angular 4, Jasmine & Karma, TypeScript, .NET MVC/WCF

- Member of the Enhanced User Experience team which transformed an existing Windows Web Form application to an Angular 4 app.
- Lead Angular 4 training sessions that covered core features for developers that were new to the team.
- Wrote unit and integration tests for Angular components and services.
- Conducted the first-round screening interviews for UI/UX candidates.

KL Outdoor, Muskegon, MI

2016 - 2017

Full Stack Web Developer - Technologies: Node.js, Handlebars.js, jQuery, Bootstrap, MS SQL Server

- Leader of a two-person development team tasked with porting existing .NET applications and filling gaps in ERP functionally to a single web portal for internal clients to access.
- Created and designed RESTful API endpoints using Node.js/Express using the MVC paradigm.
- Maintained and monitored the production and testing servers running Ubuntu and Apache.

Sales Pad, Grand Rapids, MI

2016

Junior Developer/ Project Coordinator – Technologies: C#, MS SQL Server

- Developed custom C# scripts for clients that extended the functionality of the SalesPad ERP system.
 - Assisted clients in migrating their Data Warehouse from their old ERP system to accept SalesPad data.
 - Coordinated with clients and developers to set expectations and delivery schedules for SalesPad custom projects.
-
